

New DeGEval -Publications: Recommendations

Requirement Profiles for Evaluators

With the current recommendations on education and training, the DeGEval (Evaluation Society) is aiming to make a contribution to the professionalisation of evaluation activities and the quality assurance of evaluation. The recommendations are to be understood as fundamental requirements and competencies that are essential for the adequate performance of evaluations.

You can download the recommendations here:

Recommendations for Clients of Evaluations. An Introductory Brochure for the Field of Public Administration

The objective of these recommendations is to present important aspects concerning the assignment of evaluations for typical measures such as programmes, projects, legal regulations and institutions.
